1. On 26 November 1954, 17 x 100-mm AT guns and 5 x 152-mm field howitzers were detained at the Koenigsbrueck-Ost railroad station and were picked up by 14 trucks which arrived from the direction of Neues Lager.

2. Between 0500 and 1000 on 25 December, 85-mm AT guns were entrained at the Koenigsbrueck-West railroad station. At 1300, approximately 42 x 85-mm AT guns and 1 JSU-122 gun were seen in the area of the railroad station. It is assumed that additional AT guns were entrained. The guns were towed to the station from Neues Lager by YA-12 prime movers.

3. Between 0600 and noon on 25 December, 11 YA-12 prime movers

a total of 100 x 85-mm AT guns and several 57-mm AT guns left Neues Lager, presumably for entraining at the Koenigsbrueck-Ost or Koenigsbrueck-West railroad station.

4. On 25 December, a train carrying 54 long-barreled guns came from the direction of Dresden and proceeded toward Schwepnitz. The shipment was allegedly unloaded in Schwepnitz.

Comment. Information \_\_\_\_\_ confirm a large-scale gun exchange in Koenigsbrueck, which probably involved the U/1 Arty Brig of the First Gds Mecz Army.

the prime movers belonged to the 34th Arty Div. The shipment mentioned in paragraph 4 is believed to have not been unloaded in Schwepnitz. Judging from the number of guns observed, the brigade must have turned in its entire gun equipment. The calibers mentioned are doubted. According to observations made with brigades of other armies, it appears more probable that 100-mm AT guns were turned in and 152-mm gun howitzers arrived.
